- 47L fridge @\$44 per week, \$27.50 long weekend
- Shower tent and 12v shower @ \$27.50 per week or part thereof
- Fuel or water jerry cans \$5.50 each per week

## Charging Tvan battery

**DO NOT LET BATTERY DROP BELOW 70%**

- The battery is trickle charged continuously via the solar panel on sunny days.
- To charge the battery while driving you will need an anderson plug and wiring to your vehicle's battery (to the second battery is the best configuration). An anderson plug is not essential when hiring; just be aware that the sun may be your only source of energy.
- To charge the battery using 240v power connect the 15 amp extension lead to 240V power supply to the Tvan's external power point. The on board battery charger monitors the rate of charge and will cut out when the battery is fully charged.

## Tvan cleaning instructions

- Wipe floor of tent area with a damp sponge on the last morning
- Fresh water hose outside of tent only if very dusty or sandy. Do not use any soaps or detergents on canvas
- Hard surfaces – use soft cloth or sponge and household detergent. (Car Lovers works well)
- Do not use brushes or scourers on any surface including the stainless steel kitchen

**NB: Tvans returned dirty will incur a minimum cleaning levy of \$250.00 deducted from your security deposit.**
